Our Vision

Our vision is to be the universe's premier golf community, by empowering the new era of golf inside and outside of the ropes.

Our Mission

To connect, enrich, and power GOLF organizations and communities around the universe, reimagining the sports experience and how we connect - implementing next generation technologies.

GOLFCOIN™ Rewards

A NEW ERA OF GOLF

www.golfcoin.cc

GOLFCOIN™ REWARDS

The platform is a Rewards Membership platform powered by NFT and blockchain based technology. Golfcoin is about elevating customer shopping experience and engagement. It will be the universal reward and loyalty system for the golf industry, while providing members greater transparency. Golfcoin is not only focused on creating partnerships with the golf industry, but looking for opportunities that can lift the gaming experience of the sport and utilize the incentive based Golfcoin platform, inside and outside of the ropes.

Rewards Tiers

Golfcoin will be used as a reward system to reimagine Golf commerce growth. Just as Marriott Bonvoy has their own rewards point system, Golfcoin will be focused on linking consumers (players) with the different merchant channels. The membership tiers can be purchased directly through NFT technology based membership cards, or earned through spending fiat or blockchain based currency and/or tokens. Smart contracts will be developed to reward customers according to the reward tier system. The higher the tier, the higher earn rate of Golfcoin exclusive membership benefits.

Golfcoin Reward partners control tier offerings.

1. Par

Lowest tier. Entry level NFT received at lowest cost. Provides access to Golfcoin Rewards ecosystem. Members receive Golfcoin with their fiat or blockchain based purchase, including access to promotional offers exclusive to Golfcoin holders. NFT based Membership can be resold on secondary marketplace.

2. Birdie

Second tier. Provides access to Golfcoin Rewards ecosystem. Members receive Golfcoin with their fiat or blockchain based purchase, including access to promotional offers exclusive to Golfcoin holders. NFT Membership can be resold on secondary marketplace.

3. Eagle

Third tier. Benefits exceed second tier. Provides access to Golfcoin Rewards ecosystem. Members receive Golfcoin with their fiat or blockchain based purchase, including access to promotional offers exclusive to Golfcoin holders. NFT Membership can be resold on secondary marketplace.

4. Albatross

Highest tier level and benefits. Members receive Golfcoin with their fiat or blockchain based purchase, including access to the most exclusive benefits, promotional offers exclusive to Golfcoin holders, and status. NFT Membership can be resold on secondary marketplace.

Fees

Golfcoin's payment gateway will charge a small fee to complete a transaction. Of this, partial will go directly to the Golfcoin holder, and partial will go to the Golfcoin treasury.

Golf Social

Golf Social will be our umbrella community platform, driven by a DAO. A "DAO" is short for "Decentralized Autonomous Organization". Similar to a Board of Directors, the DAO represents a collective group of voters or decision makers. These voting rights are held by Golfcoin Rewards Members or individuals that hold a large percentage of Golfcoin tokens. The core team and stakeholders will present certain initiatives to vote on as necessary on an ongoing bases (i.e. monthly/quarterly or as needed). Conversely, members have the opportunity to bring initiatives to a vote.

This DAO structure empowers community members to feel more connected to the platform and to grow the network at a more grassroots level. The incentive for the DAO community is to increase the value of their membership and status, and further drive the value of Golfcoin Rewards. Ultimately, participating partners will have a more loyal following of engaged reward members.

Platform

Golfcoin is in initial development of a mobile app and payment platform. This will be compatible with both merchant POS at brick and mortar, and ecommerce solutions. NFT backed reward membership cards and the Golfcoin Rewards tokens will be stored in the apps personal wallet.

GOLFCOIN™ ROADMAP
